PA DGS WBE Certification No. 204850-2012-12-SB-W
PAUCP DBE Certification No. 12557 (PennDOT)
New York State WBE No. 60465

PA COSTARS Vendor # 003-478

COSTARS-3 IT HARDWARE
(Eos Positioning Systems)

PA ITQ Supplier: No. 15139

ITW-21 Geospatial Technologies
ITQ-26 MOTS Services
ITQ-28 Saas Services
ITQ-14 IT Consulting Services

Land Logics Group (LLG) is a woman-owned small business consulting firm providing services to private firms, governments and non-governmental organizations (NGOs). We exist to support our clients with outstanding tools, planning, and project design support that improve physical surroundings, boost quality of life, protect natural environments, and build viable places in the communities that we serve.

We offer services and products in four core categories: Digital Records Management, Geospatial Technology, Stormwater BMPs and Green Infrastructure, and Community Engagement/Planning.

We use science and technology to help clients better manage their data and ultimately make fully informed decisions. We work with agencies, organizations and businesses to build their capacity in today's digital world — identifying workflow/process improvements and reshaping approaches to data collection, management and analysis. We provide training and onboarding support to help organizations get started with cloud-based GIS solutions.

We excel at integrating spatial functionality to solving community problems and data management challenges. That might mean greater transparency and connectivity, less time needed to complete tasks, automated reporting, data visualizations with maps and graphics, or remote data collection. We understand not only the technology but also the “people” aspects of project management and bring over twenty years of in-house experience in public involvement, staff training, and communication of technical subjects to lay audiences.

CLIENTS SERVED

- Department of Defense:
US Air Force, US Navy
- PA Agencies: DOT, DEP, DCNR, DCED, DGS
- Colleges / Universities
- Regional Planning Commissions
- Construction Contractors
- Local Governments
- Non-profits/NGOs

**Authorized Dealer of
Eos Arrow Series™
GNSS Receivers for
Submeter GNSS
positioning**

group

Core Competencies

DIGITAL RECORDS MANAGEMENT

A suite of tools for Integrated Pest Management and stormwater BMPs for tracking, managing and reporting information in a geo-spatial cloud-based environment.

- Content Management Services
- Workflow Analysis
- Needs Assessment
- Mobile Field Data Collection
- GNSS Receivers
- Database Development
- Data Integration
- Data Conversion
- Asset Management
- Electronic Records Management
- Help Desks / Knowledge Support

GEOSPATIAL TECHNOLOGY

Use of Geographic Information Services (GIS) and Global Navigation Satellite System (GNSS) technology to improve workflows and advance problem solving and decision making capabilities.

- Mobile Field Data Collection
- GIS Mapping
- Geospatial Analysis
- Needs Assessment
- Training Support
- Onboarding Program
- Web Maps/Story Maps
- Ecosystem Services Analysis

STORMWATER BMPs / GREEN INFRASTRUCTURE

A range of services blends our expertise in stormwater design and municipal stormwater programs with the latest in asset management technology and web map applications.

- Stormwater Inspections & Reporting
- BMP Operations & Maintenance
- Green Infrastructure / Low Impact Stormwater Management
- Stormwater Asset Mapping
- MS4 Guidance
- MS4 Fee Assessment & Appeal Assistance
- Stormwater Audits

COMMUNITY ENGAGEMENT & PLANNING

Needs assessments, public engagement, and strategic planning for the protection of natural resources/human health and community sustainability.

- Walkability Assessments
- Public Involvement & Facilitation
- Drinking/Source Water Protection Plans
- Transportation Planning
- Recreation/Open Space Plans
- Parks Master Plans
- Forest Stewardship Plans
- Safe Routes to School Plans
- Local Ordinance Audits
- Comprehensive Planning
- Splashpark Design
- Policy Development
